

Delivery at a Glance

Your one-stop shop for Scientific, Technical, Mathematical (STM) typesetting

Worried about safety of your intellectual property?

- We have typeset & maintained source code for Professor Gilbert Strang of MIT (since 2005)

Is quality & quick turnaround a concern?

- Send sample pages for typesetting at no cost or obligation (Samples & queries: info@valutone.co.in)
- Concentrate on your core competency, with minimal intervention
- We coordinate with your staff, with the printing press, with journal editors, etc.

Our key clients

- Non-disclosure agreements in place prevent us from sharing client names and samples
- We have typeset STM documents* for an actuarial agency, training institutes, colleges...
- Feel free to contact Professor Strang (gs@math.mit.edu), for a reference

Our Process

Input (from you)

- Handwritten manuscripts, typed documents, voice dictation (lectures, etc.)
- Hand-illustrated figures

Process (what we do)

- *Typeset (text)* – Formatted text, STM text
Latex, AMSTeX, InDesign (& MathMagic), MS Word (& MathType), PowerPoint (& IguanaTex)
Beamer, Prosper (for slides)
- *Illustrate (figures)* – Gnuplot, , tikz, MATLAB, overpic, epsfig, epic, eepic, pspic, mycurves
- *Manipulate/modify (figures)* – Photoshop, Illustrator, CorelDRAW!
- *Customized page element layout, formatting, flow* – different page dimensions, document styles
- *Proofread* – English; comparing what author sent with what we are delivering
- *Preflight* – Ensuring documents at the printing press print the way you envisioned

Publishing (what is sent to you, printing press, publishers)

- Books, papers, lecture notes, slides, PowerPoint presentations
- Print-ready, Web-ready, compatible with screen readers, view (but prevent printing)...

Our Portfolio Also Includes

- Animation-based (self-running or interactive) audio/video presentations (using Flash)
- Reformatting content in large print for learning, vision, physically challenged individuals
- Custom formatted documents in HTML, XML, DocBook DTD, custom XSD
- Conversion between PDF, Word, Excel, PowerPoint, OpenOffice
- Voice, video, handwriting transcription – part of our typesetting service offering

*We typeset and drew all figures in these books authored by Professor Gilbert Strang
(our typesetting expertise is acknowledged in each book): -

- Computational Science and Engineering (ISBN: 978-0961408817)
- Introduction to Linear Algebra, 4th Edition (ISBN: 978-0980232714)
- Introduction to Linear Algebra Solutions, 4th Ed. (ebook available to teachers only, on request)
- Calculus, Second Edition (ISBN: 978-0980232745)
- Essays in Linear Algebra (ISBN: 978-0980232769)
- Differential Equations and Linear Algebra (currently typesetting, started August 2012)

We have typeset lecture notes for MIT's Mathematics Department (Professor Benn, Professor Helgason, Professor Staffilani)
